It is not easy for cyclists using single track roads. There is not always a safe spot to get off the roa if walking or cycling when a vehicle comes along.
We only have one main road on Gigha, paths to take local and visitors off road would help k walkers and cyclists safe.

What are the main issues and priorities for change that you have identified?

New paths to different areas of the island, cycle and foot. Housing to allow more people to m
to the island and bring businesses with them, people's dreams have been ruined as they had a
business to bring to the island, but no housing was available. Some islanders need to understand,
change is required or Gigha will not thrive.

What actions could be taken to deal with these?

Island consultation on housing and changes in Community Council members.
