

Marine Training Policy

1. Introduction

The purpose of this policy is to ensure that all staff members receive appropriate training to fulfil their roles effectively and safely.

2. Training requirements

Training requirements will be determined by the following factors:

- The nature of the role and responsibilities;
- The level of experience and knowledge required;
- The complexity of the work and the potential risks involved;
- The specific skills and competencies required for the job;
- The frequency and duration of training required;
- The availability of resources and support for training;
- The need to keep up-to-date with changes in legislation, regulations and best practice;
- The need to maintain professional standards and accreditation;
- The need to promote safety and prevent accidents and incidents.
