Project (3.5) -

Regulation 5 (1) (d) (iii) - NOT APPLICABLE (no Locality Plan within this area)

Regulation 5 (1) (e)

With regards to the policies in LDP2, those developing the LPP for Luing highlighted that Policy 34 – Electric Vehicle Charging should be changed in the future as the requirement to include EV charging is onerous and expensive within Conservation Areas.

"Public EV charging in a conservation area requires planning permission that is onerous and expensive

The above comment relates to the Town and Country Planning (General Permitted Development) (Scotland) Order 1992 (as amended) and the requirement for permission within Conservation Areas.

No other changes were proposed.

attending Consultation 1 and 72 people attending Consultation 2. We collected views and opinions and recorded the level of support at the events. These consultations can be found in Appendices A & B in the Isle of Luing Place Plan and our Place Plan is based on feedback from those consultations. The initial community consultationedback report can be found heard a full copy of all Q&A can be found here Report 1/ Report 2. To maximise availability of information and seek comment from people who are not resident or could not attend the public sessions we placed the information on our Trust webpage.
