This Timber Traffic Management Plan (TTMP) has been prepared so that the structure of the roads named and associated verges are protected during operations associated with in-forest road construction or upgrading as well as timber haulage operations while preserving them for the use of local residents, agriculture and other forestry users. The purpose of this local agreement is specifically to ensure that reasonable access is maintained for the forestry owner/s and their neighbours, but in a sustainable fashion and in accordance with regional and national forest strategies.
